STOCKS OF LEAF TOBACCO OWNED BY DEALERS AND MANUFACTURERS

JULY 1, 1942

Stocks of leaf tobacco owned by dealers and manufacturers in the United States and Puerto Rico on a reported weight basis, combining unstemmed and stemmed leaf, totaled 2,787,377,000 pounds on July 1, 1942, compared with 2,923,692,000 pounds on July 1, 1941 - a decrease of 136,315,000 pounds. In the 3 months from April 1 to July 1 this year, stocks decreased 266,241,000 pounds compared with a decrease of 211,672,000 pounds in the same quarter a year earlier. The larger decrease in stocks for the year, and between April 1 and July 1 in particular, has resulted from domestic consumption which is of record proportions and from increased exports under the Lend-Lease Act.

The reported weight of all flue-cured types totaled 1,272,791,000 pounds on July 1. A year earlier the weight was 1,358,562,000 pounds. Stocks of Type 11 on July 1, 1942 were 477,449,000 pounds; of Type 12, 465,515,000 pounds; of Type 13, 229,575,000 pounds; and of Type 14, 100,252,000 pounds. Flue-cured stocks as of July 1 were 85,771,000 pounds smaller than a year earlier and showed a decrease of 146,299,000 pounds between April 1 and July 1 compared with 142,395,000 pounds in the same quarter in 1941. A large part of the decrease is accounted for by the increased consumption of cigarettes which totaled 217 billion for the fiscal year ended July 1942. Notwithstanding the increased domestic consumption and shipments under lend-lease, flue-cured stocks are of near record proportions.

Stocks of Burley tobacco on July 1 totaled 748,023,000 pounds compared with 780,531,000 pounds on July 1, 1941 - a decrease of 32,508,000 pounds. Maryland stocks were 35,924,000 pounds, showing a small increase over the stocks of 35,758,000 pounds reported on July 1, 1941. The increased consumption of tobacco products in general, and of cigarettes in particular, has increased the consumption of the light air-cured types, compensating in part for reduced exports of Maryland. Exports of Burley have never been a significant part of disappearance.

Foreign-grown cigarette and smoking tobacco (Turkish and other), Type 90, totaled 78,435,000 pounds compared with 109,136,000 pounds on July 1, 1941. This decrease indicates a substantial use of the reserve supply of this type, even though imports have been arriving in considerable quantities.

Stocks of all fire-cured types of tobacco were 189,439,000 pounds on July 1, 1942, compared with 189,343,000 on July 1, 1941. Stocks of Type 21 were reported as 32,324,000 pounds; Type 22, 111,226,000 pounds; Type 23, 45,622,000 pounds; and Type 24, 267,000 pounds. Dark air-cured stocks totaled 69,343,000 pounds compared with 72,427,000 pounds on July 1, 1941. One Sucker stocks,

Type 35, totaled 35,354,000 pounds on July 1, 1942; Green River, Type 36, 30,994,000 pounds; and Virginia sun-cured, 2,995,000 pounds. Domestic consumption of products manufactured from dark tobaccos has shown some increase recently, which probably is temporary; but exports are practically non-existent. A program for diversion of tobaccos into nicotine sulphate (for insecticidal purposes) and other byproducts will be in effect during 1942-43. Considerable quantities of dark tobaccos will be diverted under this program.

American-grown cigar-filler stocks totaled 216,584,000 pounds on July 1 compared with 204,638,000 pounds on the same date a year earlier. Stocks of Pennsylvania Seedleaf, Type 41, were 120,217,000 pounds; Gebhardt, Type 42, 23,230,000 pounds; Zimmer, Type 43, 10,799,000 pounds; Dutch, Type 44, 8,205,000 pounds; Georgia and Florida sun-grown, Types 45 and 56, 1,173,000 pounds; and Puerto Rican, Type 46, 52,960,000 pounds.

The cigar-binder-type stocks totaled 143,165,000 pounds compared with 139,567,000 pounds on July 1, 1941. Connecticut Broadleaf, Type 51, totaled 28,226,000 pounds; Connecticut Havana Seed, Type 52, 30,679,000 pounds; New York and Pennsylvania Havana Seed, Type 53, 3,173,000 pounds; Southern Wisconsin, Type 54, 37,694,000 pounds; and Northern Wisconsin, Type 55, 43,393,000 pounds.

Shade-grown wrapper-type stocks as of July 1, 1942, totaled 11,417,000 pounds of which Connecticut Valley shade-grown, Type 61, was 7,464,000 pounds and Georgia and Florida shade-grown, Type 62, 3,953,000 pounds. Total shade-grown stocks a year earlier were 11,087,000 pounds.

Foreign-grown cigar-leaf stocks in the United States on July 1, 1942 were: Cuba (Havana), Type 81, 11,894,000 pounds; Sumatra and Java, Type 82, 5,954,000 pounds; Philippine Islands (Manila), Type 83, 1,465,000 pounds; and other foreign-grown, Type 84, 234,000 pounds. Total foreign-grown cigar leaf in the United States on July 1, 1942 totaled 19,547,000 pounds compared with 19,857,000 pounds on the same date in 1941. Stocks of Philippine cigar leaf dropped sharply but stocks of Cuban tobacco increased. Sumatra and Java stocks owned by dealers and manufacturers plus holdings of the Netherlands East Indies Corporation of leaf suitable for domestic cigar manufacturers appears to be sufficient for about $2\frac{1}{2}$ or 3 years at the present rate of consumption. Cigar consumption in the fiscal year ended June 1942, totaled 6.1 billion compared with 5.7 billion a year earlier. Manufacture of scrap chewing tobacco also has shown some increase.

Of stocks of the miscellaneous types, Eastern Ohio, Type 71, was 810,000 pounds; Perique, Type 72, 809,000 pounds; and other miscellaneous domestic, Type 73, 1,090,000 pounds.

The figures quoted for type totals in this summary statement are the sums of unstemmed and stemmed leaf as reported. Tables in the body of the report show stocks on a farm-sales-weight basis, and stocks owned by dealers and manufacturers separately. Stocks are also shown in detail, subdivided according to recognized groupings.

EXPLANATION OF GROUP SYMBOLS

GROUPS OF TYPES 11, 12, 13, and 14:

A-Wrappers
B-Leaf and smoking leaf
C-Cutters
X-Lugs and primings
S-Scrap
N-Nondescript

GROUPS OF TYPES 21, 22, 23, and 24:

A-Wrappers
B-Heavy leaf
C-Thin leaf
X-Lugs
S-Scrap
N-Nondescript

GROUPS OF TYPE 31:

A-Wrappers
B-Bright leaf, red leaf and tips
C-Lugs and Cutters
X-Trash and flyings
S-Scrap
N-Nondescript

GROUPS OF TYPE 32:

B-Heavy leaf or dull crop
C-Thin leaf or bright crop
X-Seconds and ground leaves
S-Scrap
N-Nondescript

GROUPS OF TYPES 35, 36, and 37:

A-Wrappers
B-Heavy leaf
C-Thin leaf
X-Lugs
S-Scrap
N-Nondescript

GROUPS OF TYPE 41:

B-Binders or tops
C-Fillers (farm wrappers)
X-Stemming grades
Y-Farm fillers or ground leaves
S-Scrap
N-Nondescript

GROUPS OF TYPES 42, 43, and 44:

C-Fillers (farm wrappers)
X-Stemming grades
Y-Farm fillers or ground leaves
S-Scrap
N-Nondescript

GROUPS OF TYPES 45 and 56:

B-Binders
C-Fillers
X-Stemming grades
Y-Ground leaves
S-Scrap
N-Nondescript

GROUPS OF TYPE 46:

C-Superior
X-Inferior
Y-Defectuosos
S-Scrap (Picadura)
N-Nondescript

GROUPS OF TYPES 51, 52, and 53:

A-Wrappers
B-Binders, seconds and brokes
C-Fillers and short darks
X-Stemming grades
Y-Sand-leaf fillers or ground leaves
S-Scrap
N-Nondescript

GROUPS OF TYPES 54 and 55:

B-Binders
C-Fillers
X-Stemming grades
Y-Sand-leaf fillers or bottom leaves
S-Scrap
N-Nondescript

GROUPS OF TYPES 61 and 62:

A-Wrappers
B-Stout wrappers and binders
C-Fillers or tips
X-Filler brokes
S-Scrap
N-Nondescript

GROUPS OF TYPES 81, 82, and 83:

A-Wrappers
C-Fillers
S-Scrap

TOBACCO STOCKS BY GROUPS OF GRADES

1/ For factors used in converting various weights for types 11-62, see table 3 on page 8 of U. S. Department of Agriculture Circular No. 435, Tobacco Shrinkages and Losses in Weight in Handling and Storage. July 1 figures subject to revision.

2/ A factor of 1.11 was used for converting unstemmed stocks to farm-sales-weight equivalent.

3/ A factor of 1.333 was used for converting stemmed stocks to unstemmed equivalent; a factor of 1.09 was used for converting stocks on unstemmed basis to farm-sales-weight equivalent.

4/ A factor of 1.205 was used for converting stemmed stocks to unstemmed equivalent.

5/ No conversion was made of unstemmed stocks.

* Revisions in April 1 report.

1/ These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners subject to provisions of The Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress. The quantities owned by dealers and manufacturers have been tabulated separately on a type total basis. Figures are as reported to date; no revisions of this table will be made.

2/ The quantities shown as owned by manufacturers include tobacco which is held under dealer registries of manufacturers and also tobacco held by dealers and known to be purchased on order for foreign or domestic manufacturers. The quantities shown as owned by dealers may include some tobacco held by dealers which is earmarked for sale to domestic manufacturers or for export. The table should therefore be considered as representing only the approximate quantities owned respectively by dealers and manufacturers.

3/ Includes stocks on the island of Puerto Rico.

1/ These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners except (a) the original growers of tobacco, (b) manufacturers who in the first three quarters of 1941, according to the returns of the Commissioner of Internal Revenue, manufactured less than 35,000 pounds of tobacco, less than 185,000 cigars, or less than 750,000 cigarettes, pursuant to the provisions of The Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and the 74th Congress.

2/ Subject to revision.

3/ Does not include stocks owned by Netherlands Indies Produce Corporation held in the free trade zone and in transit.

* Revisions in April 1 report.
